PUBLIC NOTICE

POLAND SPRING WATER EXTRACTION

PERMIT RENEWAL

PUBLIC HEARING CONTINUATION

Continued Public Hearing Date: Tuesday, **November 10, 2026**
Time: 6:00 PM
Location: Denmark Town Office – 62 East Main St

The continuation of the public hearing scheduled on November 10th is intended to provide the Select Board, Town Technical Agent and Poland Spring time to clarify information already entered into record and to allow for the submission of new information related to the latest Town Technical Presentation, as well as any additional information or records relevant to the proceedings. The public may be allowed a final opportunity to make comments and ask questions provided comments and questions are limited to addressing new information submitted at or since the prior Public Hearing. Any questions received during or prior to this hearing continuation will be taken under consideration when the Select Board begins their deliberation.

Where the Board finds no demonstrated need and/or no good cause for additional time for Public Hearing, the Select Board will close the Public Hearing and enter the deliberation phase in accordance with the Town's Water Extraction Ordinance. During the deliberation phase, the Select Board shall not accept new records or information. However, the Select Board and Town Officials may consult with the Town's Technical Agent, Town's Legal Counsel and Poland Spring, when warranted. All deliberation meetings will be open to the public and posted on the Town's Website.

The Select Board recognizes and appreciates the time, attention, and input members of the public have devoted to this process. The Board will continue to carefully review and consider the questions, comments, and information presented and received throughout the public hearings, as it deliberates and works toward a decision consistent with the Town's Ordinance.
